Subject Index to Volume 41

Annealing

Application of Simulated Annealing to Clustering Tuples in Databases, (2):98

Automatic Cataloging

Automatic Derivation of Name Access Points in Cataloging, (4):254

Automatic Indexing

On Generalizing the Two-Poisson Model, (1):61

INDEX: The Statistical Basis for an Automatic Conceptual Phrase-Indexing System, (2):87

Indexing by Latent Semantic Analysis, (6):391

Automatic Syntactic Analysis of Free Text, (6):408

Belief Functions

A Belief Function Approach to Information Utilization in Decision Making, (8):569

Bibliometrics

Relations between Continuous Versions of Bibliometric Laws, (3):197

The Growth of the OPAC Literature, (5):342

Informetric Distributions, Part I: Unified Overview, (5):368

Informetric Distributions, Part II: Resilience to Ambiguity, (5):376

Booth's Law

Brief Communication: Booth's Law of Word Frequency, (5):387

Bradford's Law

Clustering in Comprehensive Bibliographies and Related Literatures, (3):183

A Note on Different Bradford Multipliers, (3):204

Applications of the Theory of Bradford's Law to the Calculation of Leimkuhler's Law and to the Completion of Bibliographies, (7):469

Business Information Systems

Information Transmission in Viable Systems, (2):111

Card Catalogs

Retrieval by Reformulation in Two Library Catalogs: Toward a Cognitive Model of Searching Behavior, (4):272

CD-ROM Databases

Databases on Optical Discs and Their Potential in Developing Countries, (4):238

Circulation, Library Materials

Using the Gamma-Poisson Model to Predict Library Circulations, (3):164

Citation Analysis

A Review of Journal Coverage Overlap with an Extension to the Definition of Overlap, (1):43

Measuring Referencing Practices, (3):157

Uncitedness in the Biomedical Literature, (3):193

Obsolescence of Physics Literature: Exponential Decrease of the Density of Citations to *Physical Review* Articles with Age, (4):282

Net Citation Balances: A Measure of Influence between Scientific Journals, (4):298

Author Cocitation Analysis: Mapping Authors in Intellectual Space: A Technical Overview, (6):433

Author Cocitation Analysis: Mapping Intellectual Structure of a Scientific Subfield through Author Cocitations, (6):444

Author Cocitation Analysis: Intellectual Structure of Research in Organizational Behavior, 1972-1984: A Cocitation Analysis, (6):453

Author Cocitation Analysis: An Oasis Where Many Trails Cross: The Improbable Cocitation Networks of a Multidiscipline, (6):459

Citation Analysis of the Literature of Systematic Botany: A Preliminary Survey, (7):535

Ten years of the Literature of Online Searching: An Analysis of *Online* and *Online Review*, (8):560

Clustering

Application of Simulated Annealing to Clustering Tuples in Databases, (2):98

Clustering in Comprehensive Bibliographies and Related Literatures, (3):183

Scatter of Library and Information Science Topics among Bibliographic Databases, (4):245

Communication

Information Transfer and the Adoption of Agricultural Innovations, (1):1

Informal Scientific Communication in Nigerian Universities, (6):419

Database Structure

Accelerating Text Searching through Signature Trees, (2):79

Application of Simulated Annealing to Clustering Tuples in Databases, (2):98

A Signature File Scheme Based on Multiple Organizations for Indexing Very Large Text Databases, (7):508

Matching of Citations between Non-Standardized Databases, (8):599

Decision Making

A Belief Function Approach to Information Utilization in Decision Making, (8):569

End-User Satisfaction

End-Users, Mediated Searches, and Front-End Assistance Programs on Dialog: A Comparison of Learning, Performance and Satisfaction, (1):27

Does Order of presentation Affect Users' Judgement of Documents? (7):493

All the Right Words: Finding What You Want as a Function of Richness of Indexing Vocabulary, (8):547

Retrieving Records from a Gigabyte of Text on a Minicomputer Using Statistical Ranking, (8):581

Expert Systems

Using Vector and Extended Boolean Matching in a Expert System for Selecting Foster Homes, (1):10

Fallout

Evaluating the Effectiveness of Information Retrieval Systems Using Simulated Queries, (5):313

Front-End Systems

End-Users, Mediated Searches, and Front-End Assistance Programs on Dialog: A Comparison of Learning, Performance and Satisfaction, (1):27

Fuzzy Models

Fuzzy versus Probabilistic Models for User Relevance Judgments, (4):264

Groos Droop

Applications of the Theory of Bradford's Law to the Calculation of Leimkuhler's Law and to the Completion of Bibliographies, (7):469

Indexing

A Sensitivity Analysis of a Probabilistic Information Retrieval System, (5):348

A Signature File Scheme Based on Multiple Organizations for Indexing Very Large Text Databases, (7):508

All the Right Words: Finding What You Want as a Function of Richness of Indexing Vocabulary, (8):547

Information Inconservation

The Law of Information Inconservation, (6):418

Information Transfer

Information Transfer and the Adoption of Agricultural Innovations, (1):1

Information Transmission in Viable Systems, (2):111

Informal Scientific Communication in Nigerian Universities, (6):419

Informetric Distributions

Informetric Distributions, Part I: Unified Overview, (5):368

Informetric Distributions, Part II: Resilience to Ambiguity, (5):376

Journal Analysis

Ten years of the Literature of Online Searching: An Analysis of *Online* and *Online Review*, (8):560

Latent Semantic Indexing

Indexing by Latent Semantic Analysis, (6):391

Leimkuhler's Law

Applications of the Theory of Bradford's Law to the Calculation of Leimkuhler's Law and to the Completion of Bibliographies, (7):469

Library Collections, Evaluation

Information in a Data Collection: Models of Database and Library Quality, (5):359

Library Services, Evaluation

Book Availability as a Performance Measure of a Library: An Analysis of the Effectiveness of a Health Sciences Library, (7):501

Linear Retrieval Models

Query Formulation in Linear Retrieval Models, (5):334

Obsolescence

Obsolescence of Physics Literature: Exponential Decrease of the Density of Citations to *Physical Review* Articles with Age, (4):282

Online Public Access Catalogs (OPAC)

Retrieval by Reformulation in Two Library Catalogs: Toward a Cognitive Model of Searching Behavior, (4):272

Online Searching

End-Users, Mediated Searches, and Front-End Assistance Programs on Dialog: A Comparison of Learning, Performance and Satisfaction, (1):27

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

Query Formulation for Handling Negation in Information Retrieval Systems, (3):171

Optical Discs

Databases on Optical Discs and Their Potential in Developing Countries, (4):238

Overlap

A Review of Journal Coverage Overlap with an Extension to the Definition of Overlap, (1):43

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

Matching of Citations between Non-Standardized Databases, (8):599

Peer Review

Evaluation of Scientific Information: Peer Review and the Impact of New Information Technology: Mechanisms for Evaluating Scientific Information and the Role of Peer Review, (3):216

Evaluation of Scientific Information: Peer Review and the Impact of New Information Technology: Peer Review and the Changing Research Record, (3):223

Evaluation of Scientific Information: Peer Review and the Impact of New Information Technology: Response to the Panel on Evaluation of Scientific Information and the Impact of New Information Technology, (3):229

Phrase-Indexing

INDEX: The Statistical Basis for an Automatic Conceptual Phrase-Indexing System, (2):87

Poisson Models

On Generalizing the Two-Poisson Model, (1):61

Using the Gamma-Poisson Model to Predict Library Circulations, (3):164

Precision

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

A Mathematical Model of Retrieval System Performance, (7):495

Probabalistic Models

Net Citation Balances: A Measure of Influence between Scientific Journals, (4):298

A Generalized Binary Probabilistic Independence Model, (5):324

Optimal Binary Prefix-Condition Codes with Ordinal Probabilities, (5):330

Query Formulation in Linear Retrieval Models, (5):334

A Sensitivity Analysis of a Probabilistic Information Retrieval System, (5):348

Fuzzy versus Probabilistic Models for User Relevance Judgments, (4):264

Ranking

Retrieving Records from a Gigabyte of Text on a Minicomputer Using Statistical Ranking, (8):581

Recall

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

Evaluating the Effectiveness of Information Retrieval Systems Using Simulated Queries, (5):313

A Mathematical Model of Retrieval System Performance, (7):495

Referencing Practices

Measuring Referencing Practices, (3):157

Uncitedness in the Biomedical Literature, (3):193

Relevance

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

Fuzzy versus Probabilistic Models for User Relevance Judgments, (4):264

A Sensitivity Analysis of a Probabilistic Information Retrieval System, (5):348

Does Order of presentation Affect Users' Judgement of Documents? (7):493

Relevance Feedback

Improving Retrieval Performance by Relevance Feedback, (4):288

Query Formulation in Linear Retrieval Models, (5):334

Scaling Theory

The Simple Scalability of Documents, (8):590

Scatter

Scatter of Library and Information Science Topics among Bibliographic Databases, (4):245

Search Simulation

Evaluating the Effectiveness of Information Retrieval Systems Using Simulated Queries, (5):313

Search Strategy

Search Term Combinations and Retrieval Overlap: A Proposed Methodology and Case Study, (2):132

Query Formulation for Handling Negation in Information Retrieval Systems, (3):171

Retrieval by Reformulation in Two Library Catalogs: Toward a Cognitive Model of Searching Behavior, (4):272

Improving Retrieval Performance by Relevance Feedback, (4):288

Query Formulation in Linear Retrieval Models, (5):334

Semantics

Indexing by Latent Semantic Analysis, (6):391

Signature Trees

Accelerating Text Searching through Signature Trees, (2):79

A Signature File Scheme Based on Multiple Organizations for Indexing Very Large Text Databases, (7):508

Syntactic Analysis

Syntactic Patterns in Scientific Sublanguages: A Study of Four Disciplines, (2):121

Automatic Syntactic Analysis of Free Text, (6):408

Text Searching

Accelerating Text Searching through Signature Trees, (2):79

Thesauri

Query Formulation for Handling Negation in Information Retrieval Systems, (3):171

Vector Correlation

Using Vector and Extended Boolean Matching in a Expert System for Selecting Foster Homes, (1):10

Vocabularies, Special

Syntactic Patterns in Scientific Sublanguages: A Study of Four Disciplines, (2):121

Word Frequency

Brief Communication: Booth's Law of Word Frequency, (5):387
